DEPARTMENT OF PUBLIC INSTRUCTION, MADRAS.

INSPECTION REPORT ON SECONDARY SCHOOLS FOR 1939-1940.

No. 288 | B 42/39
31-1-1940.

Name of institution .. Goodwill Girls' High School, Bangalore.

OFFICE OF THE
HON'BLE THE RESIDENT
IN MYSORE, BANGALORE.
1 FEB 1940
Diary No. 1237
File No.

Name of management (Registered or not). .. Methodist Tamil Mission

Name of Correspondent .. Miss R. E. Roper, B.Sc.

Number and date of Director's Proceedings recognizing the school under the Madras Educational Rules or G.O. sanctioning the opening.	Dis. No. 7042 dated 14.11.1918
Period for which the school is recognized.	Permanent
Date of inspection	13th, 14th & 15th November 1939.
Date of Report	27th January 1940.
Date of Despatch	31st January 1940.
Date of the last inspection ..	14th to 16th Nov. 1938.
Number and date of the Resident's / Director's proceedings reviewing the last inspection report.	D. Dis. No. F. 219-39/G.&A., dated 13-4-1939.

S.N.2 W

Instructions for the preparation of the report.

1. The name of the school, as recognized by the department, should be entered in full on the title-page.

2. Except in the case of schools directly managed by Government or by a local board, the names of responsible managers should be given in full on the title-page.

3. Any explanation which the manager or headmaster may desire to give regarding each table (tables *g*, *i*, *j*, *k*, *l and m* excepted), should be given in the space allotted for the purpose.

4. *Table* (*a*).—Managers should afford the inspecting officer facilities for verifying the accounts. If any important change has taken place in the receipts or expenditure of the institution since the close of the year, so as to alter materially its financial position, the facts should be noted in the blank page. Care should be taken to see that the figures in table (*a*) correspond with the figures entered against the same items in the financial statement for the same year.

5. *Table* (*b*).—(1) The names and other particulars of acting as well as of permanent incumbents should be shown in this table.

(2) *The professional certificates of all certificated teachers on the staff should be produced before the inspecting officer, who will thereafter verify the entries in this table.* Certificates which are not in the revised form should be submitted to the Director through the inspecting officer, for registration and renewal, and teachers who have lost their certificates should be instructed to apply forthwith for copies of such certificates.

(3) Physical training, and other special instructors should be included in this table, but teachers whose sole duty it is to teach religion, and clerks and menial servants should be excluded.

(4) The inspecting officers should review in the remarks column the qualifications of the staff with reference to rules 13 to 17 of the Madras Educational Rules, and prescribe the steps, if any, which are to be taken by the management to comply with the requirements of those rules.

6. *Table* (*c*).—(1) Explanation should be furnished in the appropriate column regarding fluctuations in attendance.

(2) Explanation should be furnished regarding pupils admitted without vaccination certificates.

7. *Table* (*d*).—(1) The fee registers should be produced for inspection. The inspecting officer should not only examine carefully the record of the terms concerned but also note any irregularity. It should also be stated whether the registers are kept in the forms prescribed in the Madras Educational Rules and whether the method of payment prescribed is followed.

(2) The totals of columns 2 and 3, and 4 and 5 should be the same, it being borne in mind that all admissions into the lowest class are to be entered in column 3 and all withdrawals from the highest class in column 4. In column 6 it should be stated how many pupils were wholly free and how many were partly free.

(3) Column 7 should exhibit Muhammadan, Oriya or other pupils who are allowed to pay fees at favourable rates.

(4) The inspecting officer should certify that the Fee Regulations (Chapter VII, Madras Educational Rules) are complied with, or should record any deviation therefrom.

(5) If in institutions under public management fees are levied at rates other than the standard rates fixed in the Fee regulations (Chapter VII, Madras Educational Rules), the number and the date of the Proceedings or other order according the general or special sanction should be entered in the column for remarks. It should be recorded whether fees are levied in full at the beginning of the term or by instalments.

8. *Table (h).*—This should be filled in by the headmaster. It should give the names of affiliated schools and a brief statement of all work undertaken by the headmaster and staff in connexion with them. It should also show the number of pupils admitted during the year preceding the inspection into the Central school from each of the affiliated schools. In the remarks column the inspecting officer should comment briefly on the quantity and quality of the supervision exercised by the staff and headmaster of the Central school and on the general standard of attainments of the pupils admitted from the affiliated school.

9. *Tables (i), (j), (k), (l) and (m).*—The inspecting officer alone will make entries in these tables. The main object of the remarks will be to guide the headmaster and staff and the criticism should be of a constructive character. The headmaster should have ready at the time of inspection a statement showing the portion of work prescribed in each subject for each form for both terms of the school year and a list of the text-books used for each subject in each form. The inspecting officer should note carefully whether the portions accomplished by the time of his visit are reasonable with reference to the time of year and whether the text-books in use have been approved by Government. He should also note whether the general course of instruction is in accordance with the current requirements of the department.

10. It is desirable that the scrutiny of registers should, as far as possible, be conducted within the school premises and that the registers should not be taken away from the school except in circumstances in which their submission in original to the controlling officers is deemed necessary, or when there are important omissions or irregularities requiring very careful scrutiny.

Edl. B. 13—1

Correspondent's remarks.	Inspecting officer's remarks on the *general financial position of the school and its policy as regards fees*, as well as on any details calling for remark.
	The Boarding House accounts are no longer included in the school accounts. The drop in expenditure under Teaching Staff is due to the resignation of Mrs. Forth, the Music mistress, who was not replaced. Other items of expenditure remain normal. There is an increase in the amount realized from school fees. Sports fees should be shown separately. The accounts were in order. Expenditure is kept down as much as possible.

(*b*) —*Teaching Staff*—cont.

Correspondent's remarks.	Inspecting officer's remarks on the suitability and adequacy of the staff as a whole.
	There have been several changes in the staff, but more trained teachers are being employed. There is now a separate sewing mistress who holds a technical teacher's certificate. The new teachers' certificates were checked, and the service of probationers was approved.

Separate figures to be shown for each subject

(*f*).—*Average marks for the school*—cont.

Inspecting officer's remarks on the working of the Secondary School-leaving Certificate scheme—

(1) Custody of the certificates; (2) the punctuality, accuracy and neatness with which entries in them are made; (3) the suitability of the choice of subjects under Group 'C' adequacy of the arrangements made for teaching them and of the number of 'C' subjects taken to afford scope for choice by pupils of varying aptitudes and expectations; (4) the system under which marks in schools are awarded; (5) a comparison of the marks awarded and of the notes in the certificates on handwriting, physical training, special aptitudes, etc., with the officer's own impression of the work and aptitudes of individual pupils; (6) whether due attention is given to 'B' subjects and any means taken by the school authorities to ensure it.

N.B.—Remarks should be made on all the above items.

(1) Satisfactory.

(2) Some of the registers had not been signed by the Principal and the pupils.

(3) The distribution of C Group subjects was as follows:

	Form VI	Form V.
Botany ...	10	16
Chemistry. ...	15	9
Geography. ...	9	5
Mathematics. ..	1	0

The choice of subjects was suitable.

(4) and (5) Satisfactory.

(6) Needlework and Drawing are taught up to Form IV. There was some very good Art work on display. Physical Training receives satisfactory attention. Singing continues good.

(*g*) *Madras Educational Rules.*

(1) Accommodation, (2) Sanitary condition, (3) Furniture, apparatus, appliances, and library, (4) Garden and museum, (5) Observance of rules regarding admissions and withdrawals, (6) Maintenance of registers including Provident Fund registers, (7) Discipline, dress, etc.

(1) No change. Sufficient and satisfactory.

(2) Satisfactory. The sanitary system has now been connected with the main sewer in Spencer Road.

(3) The school is well equipped, and additions continue to be made to the furniture.

(4) There is a small but attractive garden.

(5) and (6) Well maintained, though again this year there were some irregularities in the admissions of the Middle and Primary classes.

(7) Excellent.

(*h*) *Remarks* in the case of an incomplete secondary school on the amount and quality of the supervision exercised over it by the headmaster of the school of which it is affiliated.

(*i*) Physical Training. Boy Scouts. Medical Inspection.

(*j*) Moral and Religious Instruction.

(*k*) Manual Training for boys and Domestic Science for girls.

(i) The Director of Physical Training reports that good work is being done in physical training. He suggests that a day in the week might be set apart for training the girls in athletics; he also suggests that Basketball might be played and a few indoor games introduced and swings and slides provided. The time-table put down physical training in the first period for Form IV. This was unfortunate.

There are two companies of Girl Guides and a Blue Bird Flock—both efficient.

No medical inspection of the girls is carried out.

(j) Receives satisfactory attention.

(k) Domestic Science is taught.

(l) The organizing and supervising work of the headmaster including distribution of work among the staff, time-table, examinations, disciplinary rules for staff and pupils, admission, classification and promotion of pupils.

The work is well directed, essentials receiving the attention they deserve. There are details, however, which both the Deputy Inspector and I found needed more attention, and I would suggest that a senior member of the staff be put in charge of the Lower Secondary Department, where considerable weakness exists and where closer direction of the work is necessary.

I would draw attention, once again, to the need there is for a definite scheme for the setting of homework and written work generally. Much of the written work- in English at any rate - examined by me lacked plan and purpose. In Form VI the work set in Geography was confined almost entirely to tests. The written work set in English in Form IV A struck me as being entirely without plan, and some of the free composition found in the exercise books of Forms I to III was very evidently not the girls' own work, nor was the balance or correlation between grammar and composition well observed. The work in Arithmetic also was susceptible of much improvement, as both the Deputy Inspector and I found.

The classification and promotion of the pupils was generally satisfactory. The admission register still needs attention.

(m) The general impression of the inspecting officer with respect to the efficiency of the teaching and management of the institution. Points specially discussed at the conference with the staff at the close of inspection should be mentioned.

Last year's examination results were not so good as those of the previous year, the school averages for the several subjects having been less than the Presidency averages in most subjects. At my inspection this year I found considerable weakness in Elementary Mathematics in Form VI, and the girls' English was weak. A more careful examination of the language of the texts read is needed in the high school forms. The reading lesson, as I found in Form V, is apt to be made a reading lesson and nothing more, whereas it should be a language lesson as well. Though a good textbook had been prescribed for Elementary Mathematics, it was not followed closely in Form IV. This very evidently accounted for the weakness in the subject. I was glad to find a good record of work in Natural Science in Form V. An improvement was noticed in the teaching of History and Geography. The Deputy Inspector's report on the work of the classes examined by him is attached.

The school did particularly well at the inter-school sports this year, and it continues to live its very full life of work and play. Tone and discipline continue excellent.

The school is efficiently managed, and its needs receive careful consideration and are met to the extent possible. For the better organization of the instruction in the lower school I have suggested that its direction be entrusted to a senior member of the staff. With the changes in the staff that occur there so frequently and the appointment of young and inexperienced teachers, the direction and guidance of a senior teacher is very necessary. I am sure this suggestion will receive the attention it deserves. I would commend to the attention of the management the remark made in the last report regarding the regular preparation of teaching notes - by the less experienced teachers at any rate.

Inspecting Officer

Inspector of Schools,
C. & M. Stn. Bangalore.

Extract from the Report of the Deputy Inspector of Schools.

Primary Department.

English.- The first three classes had made fair progress, though class III was backward in dictation. Class IV B was fair, and V A was good; but IV A and V B were positively poor. It looked as if sufficient attention had not been paid to language drill in the latter classes. Mistakes, such as the sentence not having the finite verb and the verb not agreeing with the subject, were very common. Abundant practice in sentence construction should be given, and the errors of language which are common should be collected and frequent exercises designed to correct them should be provided. The blackboard should be liberally used for the purpose. Collective answering should be discouraged. The re-writing of mistakes in composition exercises should be regularly insisted on.

Arithmetic.- Number work may be considered as fair in the lower classes, but much improvement was needed in the upper classes. Even in classes where a class textbook is not used, the teacher should make use of one for her own reference and also stick to its plan. Simple sums in the four rules should be worked in greater speed and accuracy. The pupils should be made familiar with the use of these rules mainly through oral work in the beginning. Problems involving the use of more than one rule should be frequently given.

Tamil.- Instruction was satisfactory, though the meanings of words had not been sufficiently emphasized in some of the lower classes. Written work had been set regularly, but the re-writing of mistakes had not been so regular in class IV A.

History and Geography.- Story narration should improve in class 2. History was satisfactory and map work was very fair. Geography was very fair on the whole, though the response in IV B was not quite satisfactory. Map work had received adequate attention. In both History and Geography the details of subject-matter taught in the two sections of Class V need be the same.

Nature Study.- The response was good, and neat illustrations had been drawn by the pupils. In the lower classes the teachers should equip themselves with large-sized illustrations specially drawn for purposes of class use.

Middle School Department.

English.- (as judged in the three sections of Form I and in Form II C.) The only class where there was somewhat of a fair response was Form I A; the other classes were definitely backward. The correct use of the direct and the indirect forms of expression should be carefully taught. Practice in clause analysis should be introduced early, so that the structure of a complex sentence may be properly understood. The pupil should be made to work the exercises on grammar given at the end of the lessons in their English textbooks. To do this they need not wait until they come to parallel exercises in their textbooks of grammar.

Arithmetic.- (as judged in the three sections of Form I). The response was poor. The remarks made under the primary section also hold good here. The pupils should be introduced to short-cuts in computation through mental work, and they should be trained to use these short methods in written work also. The teachers should also use these methods, wherever possible, when they work sums on the blackboard. Some of the teachers did not seem to believe in the utility of homework, but there is no other way of improving a backward girl than by setting homework, when the number of sums that can be worked in class is naturally limited.

History & Geography.- The History textbook in English used in the first two forms did not contain sufficient details. The pupils in these classes should know the outlines of Indian History up to the British period. History in Form III was very fair, and map work was satisfactory.

The response in Geography was fair, but map work was susceptible of improvement. Sectional maps of the regions of study were needed for the more accurate recording of facts of position, distribution, etc. and the clearer appreciation of their significance.

Indian Languages.- (including High School Department).

Instruction was generally satisfactory. Written work had received adequate attention in Tamil, but more work should have been set in Telugu and Kannada and the re-writing of mistakes should have been more regularly attended to. The Pandits in charge of these two languages should try to secure the active co-operation of the girls in their lessons without allowing them to remain as mere passive listeners.

INSPECTION REPORT FOR 1940-1941

OFFICE OF THE
HON'BLE THE RESIDENT
MYSORE, BANGALORE.
4 FEB. 1941
Diary No. 1219
File No.

Name of institution ... Goodwill Girls High School Bangalore

By whom managed ... Methodist Tamil mission

Correspondent ... Miss R. E. Roper, B. Sc.

Number and date of Proceedings recognizing the school under the Madras Educational Rules or G.O. sanctioning the opening. Dis No 7042 of 14th Nov. 1918

Period for which the school is recognized ... Permanent

Date of inspection ... ... 7th & 8th November 1940.

Number of hours spent in inspection—

(1) By the Inspector of Schools. Ten hours.

(2) Deputy Inspector ... ... Twelve hours.

Date of Report ... ... 29th January 1941.

Date of Despatch ... ... 3 February 1941

Date of the last preceding inspection ... 13th to 15th Nov. 1939

Number and date of Resident's proceedings reviewing the last inspection report. Dis. No. D.F. 117-40/G & A., dated 12-2-1940.

S.N. 2 of file below

Working hours of the school for secular instruction.

Morning meeting ... ... 10 A.M — 1. P.M.

Afternoon meeting ... ... 2 P.M — 4.30 P.M

Instructions for the preparation of the report.

1. The name of the school, as recognized by the department, should be entered in full on the title-page.

2. Except in the case of schools directly managed by Government or by a local board, the names of responsible managers should be given in full on the title-page.

3. Any explanation which the manager or headmaster may desire to give regarding each table (tables *f*, *g*, *h*, *i*, *j*, *k*, *l and m* expected), should be given in the space allotted for the purpose. Particulars regarding strength and attendance and fee collections of college classes of second-grade colleges should be shown in the appropriate tables of the report on secondary schools attached to them.

4. *Table* (*a*).—Managers should afford the inspecting officer facilities for verifying the accounts. If any important change has taken place in the receipts or expenditure of the institution since the close of the year, so as to alter materially its financial position, the facts should be noted in the blank page. Care should be taken to see that the figures in table (*a*) correspond with the figures entered against the same items in the Financial Statement for the same year.

5. *Table* (*b*).—(1) The names and other particulars of acting as well as of permanent incumbents should be shown in this table.

(2) The professional certificates of all certificated teachers on the staff should be produced before the inspecting officer, who will thereafter verify the entries in this table. Certificates which are not in the revised form should be submitted to the Director through the inspecting officer, for registration and renewal, and teachers who have lost their certificates should be instructed to apply forthwith for copies of such certificates.

(3) Physical training, drill and other special instructors should be included in this table, but teachers, whose sole duty it is to teach religion, and clerks and menial servants should be excluded.

(4) The inspecting officers should review in the remarks column the qualifications of the staff with reference to rules 13 to 18, Madras Educational Rules, and prescribe the steps, if any, which are to be taken by the management in order to comply with the requirements of those rules.

6. *Table* (*c*).—(1) Explanation should be furnished in the appropriate column regarding fluctuations in attendance.

(2) Explanation should be furnished regarding pupils admitted without vaccination certificates.

7. *Table* (*d*).—(1) The fee registers should be produced for inspection. The inspecting officer should not only examine carefully the record of the terms concerned but also note any irregularity. It should also be stated whether the registers are kept in the forms prescribed in the Educational Rules and whether the method of payment prescribed is followed.

(2) The totals of columns 2 and 3 and 4 and 5 should be the same, it being borne in mind that all admissions into the lowest class are to be entered in column 3 and all withdrawals from the highest class in column 4. In column 6 it should be stated how many pupils were wholly free and how many were partly free.

(3) Column 7 should exhibit Muhammadan, Oriya or other pupils who are allowed to pay fees at favourale rates.

(4) The inspecting officer should certify that the Fee Regulations (Chapte VII, Madras Educational Rules) are complied with, or should record any deviation therefrom.

(5) If in institutions under public management fees are levied at rates other than the standard rates fixed in the Fee Regulations (Chapter VII Madras Educational Rules), the number and date of the Proceedings or other order according the general or special sanction should be entered in the column for remarks. It should be recorded whether fees are levied in full at the beginning of the term or by instalments.

8. *Table* (*h*).—This should be filled in by the headmaster. It should give the names of affiliated schools and a brief statement of all work undertaken by the headmaster and staff in connexion with them. It should also show the number of pupils admitted during the year preceding inspection into the Central school from each of the affiliated schools. In the remarks column the inspecting officer should comment briefly on the quantity and quality of the supervision exercised by the staff and headmaster of the Central school and on the general standard of attainments of the pupils admitted from the affiliated school.

9. *Tables* (*i*), (*j*), (*k*), (*l*) *and* (*m*).—The inspecting officer alone will make entries in these tables. The main object of the remarks will be to guide the headmaster and staff and the criticism should be of a constructive character. The headmaster should have ready at the time of inspection a statement showing the portion of work prescribed in each subject for each form for both terms of the school year and a list of the text-books used for each subject in each form. The inspecting officer should note carefully whether the portions accomplished by the time of his visit are reasonable with reference to the time of year and whether the text-books in use have been approved by Government. He should also note whether the general course of instruction is in accordance with the current requirements of the department.

10. It is desirable that the scrutiny of registers should, as far as possible, be conducted within the school premises and that the registers should not be taken away from the school except in circumstances in which their submission in original to the controlling officers is deemed necessary, or when there are important omissions or irregularities requiring very careful scrutiny.

Details should be furnished.

† For schools under public management subsidies should be entered under 5.

Manager's or Headmaster's remarks.	Inspecting officer's remarks on the general financial position of the school and its policy as regards fees, as well as on any details calling for remark.
	The accounts were in good order. There is a quarterly audit of them. A ninth instalment of fees is now charged, and there is a small increase in the amount realized from this source. As remarked in the last report, sports fees should be shown separately. The sum of Rs.208-12-0 was realized during 1939-40 under games fees, but only Rs.138-3-0 was spent under item 15 Expenditure is kept down as much as possible, item 10 relates to improvements in the school's sanitary equipment, on which a half grant was

Inspecting officer's remarks on the working of the Secondary School-leaving Certificate scheme—

(1) Custody of the certificates; (2) the punctuality, accuracy and neatness with which entries in them are made; (3) the suitability of the choice of subjects under 'C' adequacy of the arrangements made for teaching them and of the number of 'C' subjects taken to afford scope for choice by pupils of varying aptitudes and expectations; (4) the system under which marks in schools are awarded; (5) a comparison of the marks awarded and of the notes in the certificates on handwriting, physical training, special aptitudes, etc., with the officer's own impression of the work and aptitudes of individual pupils; (6) whether due attention is given to 'B' subjects and any means taken by the school authorities to ensure it.

N.B.—Remarks should be made on all the above items.

(1) and (2) Satisfactory.

(3) This year there was no pupil taking Mathematics as an optional subject, and there were none taking Geography in Form V.

(4) and (5) Satisfactory.

(6) Needlework is now taught up to Form V. Much interest has been aroused in Art, especially design, and some excellent work was exhibit at the Art Exhibition. Singing is as good as ever; also Physical Training.

(*g*) *Madras Educational Rules.*

(1) Accommodation, (2) Sanitary condition, (3) Furniture, apparatus and appliances, (4) Garden, library and museum, (5) Observance of rules regarding admissions and withdrawals, (6) Maintenance of registers including Provident Fund registers, (7) Discipline, dress, etc.

(1) No change; sufficient and satisfactory.

(2) Satisfactory.

(3) The school is well equipped. There were further additions to the furniture.

(4) There is a small but attractive garden.

(5) and (6) Satisfactory.

(7) Excellent.

(*h*) *Remarks* in the case of an incomplete secondary school on the amount and quality of the supervision exercised over it by the headmaster of the school to which it is affiliated.

(i) Physical Training. Boy Scouts. Medical Inspection.

(*j*) Moral and Religious Instruction.

(*k*) Vocational and Manual Education.

(i) A day in the week is now devoted to giving training in athletics. Games are compulsory in the evenings for the pupils of the forms and all boarders. Net-ball, tennis, tenikoit, and throw-ball are played.

The school won the much coveted trophy for all-round championship presented by H.H. the Maharajah of Mysore. It also won the Junior and Sub-Junior trophies and the cup for mass drill.

Girl guiding receives satisfactory attention.

(j) Receives satisfactory attention

(k) Domestic Science is taught.

(l) The organizing and supervising work of the headmaster including distribtuion of work among the staff, time-table, examinations, disciplinary rules for staff and pupils admission, classification and promotion of pupils.

The direction of the work was on the whole better at this inspection, and an improvement was noticed in the standard of efficiency attained. The Principal herself now teaches in the lower school, and the presence of experienced teachers there would account for the improvement in standards. One section of Form IV has now been made a vernacular section, i.e. a section in which the pupils' mother-tongue is the medium of instruction and expression. The Deputy Inspector of Schools reports in detail on the work in the lower school more especially, extract from whose report are attached. In the upper school I found good records of work in all subjects except the mother-tongue, which seems to have been neglected, as the Deputy Inspector also observes. Mathematics, too, does not seem to have received sufficient attention in Form IV-A in the matter of homework. A test set in this class showed weakness in English - both in its use and in understanding a passage taken from the class reader, which the pupils were asked to translate into Tamil.

Admissions and promotions from class to class are made with care, and this year the admission register was in order. All except 17 of the girls come from the Cantonment proper.

An interesting experiment is being tried out in the training of girls who show no aptitude for literary studies. A special Domestic Science class has been started to give a thoroughly practical training in needlework, home nursing, first aid, etc. No fees are charged. There were 16 girls in the class, and they had gone in turns to the Infant Welfare Centre in Thimmiah Road to help with the heavy morning work there Their help had been much appreciated.

(m) The general impression of the inspecting officer with respect to the efficiency of the teaching and management of the institution. Points specially discussed at the conference with the staff at the close of inspection should be mentioned.

The institution is efficiently managed, and several improvements were effected in the direction of the instruction, as has just been stated. Examination results showed a marked improvement on those of the previous year, no less than 17 girls having been declared eligible for University courses of study. Table (f) shows considerable improvement in the school's averages.

In the teaching of English the phraseology of the prose texts comes in for definite attention, and a fair proportion of it is marked for assimilation by the pupils. In Form III-B I noticed "prepared composition" - as all composition in the lower forms ought to be, if the aim is to teach rather than merely to test - and get nowhere.

There was again good work in Natural Science, and there was further improvement in the teaching of History and Geography.

The school continues to live its very full life of work and play, and again distinguished itself at the Inter-School Sports conducted by the Bangalore Schools Athletic Association

Tone and discipline continue excellent.

(Sd.) M.S.H. Thompson,

Date of receipt

Subject.

GOODWILL GIRLS' HIGH SCHOOL.

Extracts from the Report of the Deputy Inspector of Schools.

PRIMARY DEPARTMENT.

English. The response was fair on the whole, though it was not uniformly satisfactory in all the classes. Both sections in Class 4 and the B section in Class 5 should have shown better progress. The written composition could have been better planned. More opportunities should be provided for talking in correct sentences, and the too frequent use of Tamil during English lessons, as noticed in Class 5-B, should be discouraged.

Indian Languages. The response was satisfactory. Written work had received adequate attention.

Arithmetic. The A sections of Classes IV & V were somewhat weak; the other classes were very fair.

Nature Study, History & Geography. The response was generally satisfactory, though 5-B should have done better in Geography. Good written work was in evidence in all the subjects.

MIDDLE SCHOOL DEPARTMENT.

English. (Forms I & II). Form I-B was weak; the other classes were fair. Plenty of useful written work had been done throughout. The exercises rewritten by the pupils should, however, have been more carefully scrutinized in Forms I-B & II-C.

Elementary Mathematics. (Forms I & II). The response was satisfactory. The pupils' notebooks showed plenty of work done with abstract numbers. Though this kind of work has its own use, care should be taken to see that it is not set to the extent of becoming dull and tedious. Problems attract the pupils more.

History & Geography. There was good response in all the classes except Form I-A, which was weak in Geography. Written work was adequate and satisfactory.

HIGH SCHOOL DEPARTMENT.

Indian Languages (including the Middle School Classes). Written work was quite inadequate in Tamil in all the classes from Form III upwards and in Kannada and Telugu from even Form I. Written exercises both in translation and composition should be a regular feature of language work.

19

History & Geography. History was good in all classes except Form IV-A, where the girls seemed to have forgotten most of what they had read. Geography was fair in all classes except Form VI, which was rather weak in the subject. Map work was satisfactory in both the subjects.

INSPECTION REPORT ON SECONDARY SCHOOLS FOR 193 -193

Name of institution .. .. Goodwill Girls' High School, Bangalore.
DF 117/42

Name of management (Registered or not). .. .. Methodist Tamil Mission.

Name of Correspondent .. .. Miss K. E. Kopes, B. Sc.

Number and date of Director's Proceedings recognizing the school under the Madras Educational Rules or G.O. sanctioning the opening. Dis. No. 7042 dated 14.11.1918.

Period for which the school is recognized. Permanent.

Date of inspection .. .. 4th to 6th November 1941.

Date of Report .. .. .. 12th February 1942.

Date of Despatch .. .. ..

Date of the last inspection .. 6th and 7th November 1940.

Number and date of the Director's proceedings reviewing the last inspection report.

Instructions for the preparation of the report.

1. The name of the school, as recognized by the department, should be entered in full on the title-page.

2. Except in the case of schools directly managed by Government or by a local board, the names of responsible managers should be given in full on the title-page.

3. Any explanation which the manager or headmaster may desire to give regarding each table (tables *g*, *i*, *j*, *k*, *l and m* excepted), should be given in the space allotted for the purpose.

4. *Table* (*a*).—Managers should afford the inspecting officer facilities for verifying the accounts. If any important change has taken place in the receipts or expenditure of the institution since the close of the year, so as to alter materially its financial position, the facts should be noted in the blank page. Care should be taken to see that the figures in table (*a*) correspond with the figures entered against the same items in the financial statement for the same year.

5. *Table* (*b*).—(1) The names and other particulars of acting as well as of permanent incumbents should be shown in this table.

(2) *The professional certificates of all certificated teachers on the staff should be produced before the inspecting officer, who will thereafter verify the entries in this table.* Certificates which are not in the revised form should be submitted to the Director through the inspecting officer, for registration and renewal, and teachers who have lost their certificates should be instructed to apply forthwith for copies of such certificates.

(3) Physical training, and other special instructors should be included in this table, but teachers whose sole duty it is to teach religion, and clerks and menial servants should be excluded.

(4) The inspecting officers should review in the remarks column the qualifications of the staff with reference to rules 13 to 17 of the Madras Educational Rules, and prescribe the steps, if any, which are to be taken by the management to comply with the requirements of those rules.

6. *Table* (*c*).—(1) Explanation should be furnished in the appropriate column regarding fluctuations in attendance.

(2) Explanation should be furnished regarding pupils admitted without vaccination certificates.

7. *Table* (*d*).—(1) The fee registers should be produced for inspection. The inspecting officer should not only examine carefully the record of the terms concerned but also note any irregularity. It should also be stated whether the registers are kept in the forms prescribed in the Madras Educational Rules and whether the method of payment prescribed is followed.

(2) The totals of columns 2 and 3, and 4 and 5 should be the same, it being borne in mind that all admissions into the lowest class are to be entered in column 3 and all withdrawals from the highest class in column 4. In column 6 it should be stated how many pupils were wholly free and how many were partly free.

(3) Column 7 should exhibit Muhammadan, Oriya or other pupils who are allowed to pay fees at favourable rates.

(4) The inspecting officer should certify that the Fee Regulations (Chapter VII, Madras Educational Rules) are complied with, or should record any deviation therefrom.

(5) If in institutions under public management fees are levied at rates other than the standard rates fixed in the Fee regulations (Chapter VII, Madras Educational Rules), the number and the date of the Proceedings or other order according the general or special sanction should be entered in the column for remarks. It should be recorded whether fees are levied in full at the beginning of the term or by instalments.

8. *Table (h).*—This should be filled in by the headmaster. It should give the names of affiliated schools and a brief statement of all work undertaken by the headmaster and staff in connexion with them. It should also show the number of pupils admitted during the year preceding the inspection into the Central school from each of the affiliated schools. In the remarks column the inspecting officer should comment briefly on the quantity and quality of the supervision exercised by the staff and headmaster of the Central school and on the general standard of attainments of the pupils admitted from the affiliated school.

9. *Tables (i), (j), (k), (l) and (m).*—The inspecting officer alone will make entries in these tables. The main object of the remarks will be to guide the headmaster and staff and the criticism should be of a constructive character. The headmaster should have ready at the time of inspection a statement showing the portion of work prescribed in each subject for each form for both terms of the school year and a list of the text-books used for each subject in each form. The inspecting officer should note carefully whether the portions accomplished by the time of his visit are reasonable with reference to the time of year and whether the text-books in use have been approved by Government. He should also note whether the general course of instruction is in accordance with the current requirements of the department.

10. It is desirable that the scrutiny of registers should, as far as possible, be conducted within the school premises and that the registers should not be taken away from the school except in circumstances in which their submission in original to the controlling officers is deemed necessary, or when there are important omissions or irregularities requiring very careful scrutiny.

(a).—*Abstract of Receipts and Expenditure for the year ending 31st March 1941 being the official year immediately preceding that in which the annual inspection takes place.*

Correspondent's remarks.	Inspecting officer's remarks on the suitability and adequacy of the staff as a whole.
I should like to put on record our appreciation of the services of Mr. A.G. Subramania Sastri, B.A., L.T., and Mr. C. Govindaswami Iyer, B.A., L.T., who left the service of the school at the end of the school year 1940-41, after 26 and 16 years service respectively. Both masters had worked most loyally & efficiently during all their years with us, and we parted from them with regret only when we felt the time had come for women graduates, now qualified to teach all subjects, to replace men in girls' schools.	The staff of the lower school is now fully trained, and all except Nos.25 and 27 are qualified under the rules. Nos.8 will undergo collegiate training. The tribute to the two men teachers is well deserved. The new teachers are Nos.7,13,18,22,26, and 27. Nos.26 and 27 underwent higher elementary training, but failed in the written test. No. 18 comes from Travancore.

Correspondent's remarks. (13)	Inspecting officer's remarks. (14)
The numbers in Col 6. would be much less if there was any hope that grants would be paid according to Rule 92. In the absence of any provision for free higher elementary or lower secondary education for girls in the Station, such as is available for all girls in Bangalore City and in Madras other centres, it is essential that some school should give a large number of concessions in Forms I to III. This school is bearing a large part of this burden without receiving the fee compensation due on this account.	The Government grant exceeds the amount met from Mission ~~Minor~~ funds by over Rs.2000/- Table (a). --

(c).—*Residence of pupils in Day schools.*

(1)	Number of pupils whose parents or guardians reside in the town or in the immediate neighbourhood. (2)	Number of pupils whose parents or guardians reside elsewhere. (3)	Number of pupils shown in column (3) who reside in recognized hostels. (4)	Number of pupils shown in column (3) who reside with near relatives. (*f*).—*Average marks for the school*—cont.

Inspecting officer's remarks on the working of the Secondary School-leaving Certificate scheme—

(1) Custody of the certificates; (2) the punctuality, accuracy and neatness with which entries in them are made; (3) the suitability of the choice of subjects under Group 'C' adequacy of the arrangements made for teaching them and of the number of 'C' subjects taken to afford scope for choice by pupils of varying aptitudes and expectations; (4) the system under which marks in schools are awarded; (5) a comparison of the marks awarded and of the notes in the certificates on handwriting, physical training, special aptitudes; etc., with the officer's own impression of the work and aptitudes of individual pupils; (6) whether due attention is given to 'B' subjects and any means taken by the school authorities to ensure it.

N.B.—Remarks should be made on all the above items.

(1) Satisfactory.

(2) The entries are made punctually and correctly, but copies of all certificates had not been made in the register maintained for the purpose. In this connection attention is invited to the report of the Director of Physical Education attached to this report regarding entries relating to physical training.

(3) The optional subjects offered and the number of pupils studying them are given below:

	Form V.	Form VI.
Chemistry, ...	15	15
Botany. ...	11	12
Geography. ...	8	4

(4) and (5) Satisfactory.

(6) Needlework is taught up to Form V. Physical training under Miss Job is excellent.

(g) *Madras Educational Rules.*

(1) Accommodation, (2) Sanitary condition, (3) Furniture, apparatus, appliances, and library (4) Garden and museum, (5) Observance of rules regarding admissions and withdrawals, (6) Maintenance of registers including Provident Fund registers, (7) Discipline, dress, etc.

(1) No change; Sufficient and satisfactory.

(2) Satisfactory.

(3) The School is well equipped. There have been further additions to the furniture.

(4) There is a small but attractive garden.

(5) and (6) Satisfactory.

(7) Excellent.

(*h*) *Remarks* in the case of an incomplete secondary school on the amount and quality of the supervision exercised over it by the headmaster of the school to which it is affiliated.

(*i*) Physical Training. Boy Scouts. Medical Inspection.

(*j*) Moral and Religious Instruction.

(*k*) Manual Training for boys and Domestic Science for girls.

(i) The detailed report of the Director of Physical Education is attached.

The school again distinguished itself at the Bangalore Athletic Association Sports for Girls.

(j) Receives satisfactory attention.

(k) Domestic Science is taught.

(l) The organizing and supervising work of the headmaster including distribution of work among the staff, time-table, examinations, disciplinary rules for staff and pupils, admission, classification and promotion of pupils.

The Principal is in close touch with the work throughout the school, and the results of her supervision were seen this year in the generally better standard of work throughout the school and in the lower School more especially (as is shown by the report of the Deputy Inspector of Schools attached to this report). The weakness pointed out in the last report in the teaching of Tamil has been rectified by placing in charge teachers specially qualified to teach the language, and I am looking forward to better results at this year's examinations than were obtained last year. I was particularly pleased with the written work in all subjects, with the possible exception of the work in English in Form IV-B.

Admissions and promotions from class to class are made with care. Time-tables and the provision made for periodical examinations were satisfactory.

The special class in Domestic Science is being continued

(m) The general impression of the inspecting officer with respect to the efficiency of the teaching and management of the institution. Points specially discussed at the conference with the staff at the close of inspection should be mentioned.

The institution is efficiently managed, and the instruction is satisfactorily planned and directed. The Principal would seem, however, to need further clerical assistance.

Examination results were not so satisfactory as they were in the previous years, but steps have been taken to put the teaching of Tamil --the school's weak subject -- on a better footing, and it is hoped that this year's results will be well up to standard.

There was general improvement in the school work this year.

Extra-curricular activities have been much in evidence, and the school again distinguished itself, as has already been said, at the Bangalore Schools Athletic Association Sports for Girls.

As regards war work, each class has its Defence Savings Card, and odd annas from ~~charges~~ Change from fees go towards it. Each senior class has its war album of cuttings from the illustrated papers. The bulletins issued from this office are displayed on the school notice board and otherwise made use of by the staff.

Tone and discipline continue excellent.

Inspector of Schools, 14/7
C. & M. Station, Bangalore

Inspecting Officer.

NOTES ON THE INSPECTION CONDUCTED BY THE DEPUTY INSPECTOR OF SCHOOLS

Goodwill Girls' High School.

Primary Department.

English. The results were generally satisfactory. Classes V A & B should have done better, the former in dictation and the latter in sentence construction. The pupils should learn the correct spelling of words from the corrections made in their exercise books. More constant drill seemed needed in the concord of the verb. Ending each sentence with a period should become a matter of habit with the pupils.

Indian Languages. The instruction was satisfactory in all the languages, though Classes II & III were rather weak in their general power of expression in Tamil. The pupils may be trained to speak connectedly upon a variety of experiences, always pronouncing their words distinctly. Written compositions should be set every week in the upper classes. Handwriting had received adequate attention in Tamil, but not so in Kannada and Telugu.

Arithmetic. Classes I, III & V did well in Number Work, while Classes II & IV were in weak in this subject. The meaning of the operations of multiplication and division had not been properly grasped in Class IV. Counting on the fingers was noticed in this class.

History, Geography, and Nature Study. The response in all the subjects was satisfactory, and good written work, including maps and diagrams, had been done by the pupils. The use of a textbook in Nature Study is recommended.

Middle School Department.

English. The results were generally satisfactory. The B & C sections of Forms I & II and the B Section of Form III were found to be weak. The most common types of errors were those connected with the concord of the verb and failure to distinguish subordinate from main clauses. Specific drill in correct usage at weak points is needed.

Mathematics. Except for the A sections of Forms II & III, the other classes did well at the inspection. Plenty of written exercises worked by the pupils were in evidence.

P.T.O.

Science. The instruction was good throughout. The illustrations drawn by the girls were particularly good.

History and Geography. The response in History was satisfactory. The B & C sections of Form I were weak in Geography, while the rest of the classes were satisfactory. Written work, including map work, was good.

High School Department.

History and Geography. Both the subjects had received good attentic The response was good in History and fair in Geography. Good written work had been done in both subjects.

Indian Languages. (including the Middle School Department)

The instruction was satisfactory. Written work, particularly in Tamil, had received more serious and regular attention than in the previous year.

"TRUE COPY".

INSPECTOR OF SCHOOLS, 4th Cr
C. AND M. STATION, BANGALORE.

INSPECTION REPORT.

302—8-12-38.

Name of school— Goodwill Girls' High School, Bangalore.

Date of Inspection— 5th and 6th November 1941. Time— 11 A.M. to 4 P.M. onthe 5th and 3 P.M. to 4 P.M. on the 6th

Managing body (Government, Mission, or Non-Mission)— Methodist Mission

A.—Syllabus Work.

1. Dress { Instructresses:-- Satisfactory / Girls:-- Good

2. Syllabus— English Board of Education Syllabus.

3. Exercises and games— Tables of exercises in the above book foolowed.

4. Other activities— Girl Guides- 2 companies and Blue Birds- 1 flock

5. Physical condition of Girls-- Girls-- Good 6. Discipline— Good

7. Girls' response— Good.

8. Efficiency of the Instructresses- Instructresses:--

1) Miss Job-- Good
2) Miss J. Jesudasan-- Very fair.

B.—Sports and Games.

1. Size of ground for physical training work— 100' x 50'
100' x 40'

2. State of physical training ground— Satisfactory

3. Playground--extent and condition— No separate playground.

4. Playground activities— Throwball, netball, handball, badminton, tennikoi and tennis

5. Equipment for games of
(*a*) The physical training period— Beanbugs, rings, balls, flags etc.

(*b*) The playground activities— Courts for handball, badmihton, throwball, throwball, tennis and netball.

6. Equipment for Gymnastics—its condition— A horizontal bar just now fixed. A sandpit might be provided beneath it.

7. How sports and games are organized— After school hours games are played by girls under the supervision of the teachers.

8. Part taken by school in Athletic competitions and tournaments— Took part in the B.S.S.A. Sports for girls and won the Maharajah's Cup for the best all round performance.

C.—School Hygiene and Sanitation.

1. General school sanitation—

2. Latrine and urinal accommodation—

3. Latrine and urinal sanitation—

4. Bathing facilities—

5. Lighting of class rooms—

6. Ventilation of class rooms—

7. Class room furniture—

8. Sanitation of the school surroundings—

D.—General remarks and recommendations.

The entries in the S.S.L.C. Registers are not made in accordance with the instructions issued by the Secretary to the S.S.L.C. Board, in his C. No. 76/B/41, dated 30-4-1941, a copy of which has already been sent to the heads of institutions.

Individual Efficiency tests must be conducted twice a year, and the best performance recorded in the Register.

Even the physical measurements of girls have not been taken, though it is more than five months since the school was reopened.

The physical training instructresses should keep notes of lessons, showing details of work done daily in each class.

Miss J. Jesudasan has been made to handle one section in form IV and, in my opinion, she is not sufficiently well qualified to handle high school classes.

In spite of last year's inspection report, no steps have been taken to have the girls medically examined.

A separate games fund account should be maintained.

The time-table needs revision. It was pointed in last year's inspection-report that it is not in the interests of the health of children to have games or drill periods at 10 A.M. The time-table does not show that the recommendation has been acted upon.

Good work is being done by Miss Job. The school gave a display of physical activities in October. The Guides took part in the annual rally in the Residency Grounds.

E.—General Impression.

E. GENERAL IMPRESSION.

Good.

Station,

Date 18 · 11 · 1941.

J. Srinivasa Rao

Signature of Inspecting Officer.

DEPARTMENT OF PUBLIC INSTRUCTION, MADRAS.

File 1385

No. 368/P.37/43, dated 6. 2. 1943. DF 117/43

INSPECTION REPORT ON SECONDARY SCHOOLS FOR 1942-1943.

Name of institution .. Goodwill Girls' High School.

Name of management (Registered or not). .. Methodist Missionary Society

Name of Correspondent .. L. E. Roper.

Number and date of Director's Proceedings recognizing the school under the Madras Educational Rules or G.O. sanctioning the opening. Dis. No. 7042 dated 14.11

Period for which the school is recognized. Permanent.

Date of Inspection .. .. Nov 12 and 13, 1942.

Date of Report .. .. .. 4th February 1943.

Date of Despatch .. .. .. 6. 2. 1943.

Date of the last inspection .. Nov. 4-6, 1941.

Number and date of the Director's or Divisional Inspector's proceedings reviewing the last inspection report.

Instructions for the preparation of the report.

1. The name of the school, as recognized by the department, should be entered in full on the title-page.

2. Except in the case of schools directly managed by Government or by a local board, the names of responsible managers should be given in full on the title page.

3. (*a*) Any explanation which the manager or headmaster may desire to give regarding each table [Tables (*g*), (*i*), (*j*), (*k*), (*l*) and (*m*) excepted] should be given in the space allotted for the purpose.

(*b*) The remarks of the inspecting officers on each of the details mentioned below should be specific and if possible be brief, but with sufficient details as to the nature of the defects noticed.

(*c*) In the case of secondary schools with branches, the report should include relevant details and comments on the condition of the branch schools, particularly in the matter of staff, strength and accommodation.

4. *Table* (*a*).—Managers should afford the inspecting officer facilities for verifying the accounts. If any important change has taken place in the receipts or expenditure of the institution since the close of the year, so as to alter materially its financial position, the facts should be noted in the blank page. Care should be taken to see that the figures in Table (*a*) correspond with the figures entered against the same items in the financial statement for the same year.

5. *Table* (*b*).—(1) The names and other particulars of acting as well as of permanent incumbents should be shown in this table.

(2) *The professional certificates of all certificated teachers on the staff should be produced before the inspecting officer, who will thereafter verify the entries in this table.* Certificates which are not in the revised form should be submitted to the Director through the inspecting officer, for registration and renewal, and teachers who have lost their certificates should be instructed to apply forthwith for copies of such certificates.

(3) Physical training, and other special instructors should be included in this table, but teachers whose sole duty it is to teach religion, and clerks and menial servants should be excluded.

(4) The inspecting officers should review in the remarks column the qualifications of the staff with reference to rules 13 to 17 of the Madras Educational Rules, and prescribe the steps, if any, which are to be taken by the management to comply with the requirements of those rules.

6. *Table* (*c*).—(1) Explanation should be furnished in the appropriate column regarding fluctuations in attendance.

(2) Explanation should be furnished regarding pupils admitted without vaccination certificates.

7. *Table* (*d*).—(1) The fee registers should be produced for inspection. The inspecting officer should not only examine carefully the record of the terms concerned but also note any irregularity. It should also be stated whether the registers are kept in the forms prescribed in the Madras Educational Rules and whether the method of payment prescribed is followed.

(2) The totals of columns 2 and 3, and 4 and 5 should be the same, it being borne in mind that all admissions into the lowest class are to be entered in column 3 and all withdrawals from the highest class in column 4. In column 6 it should be stated how many pupils were wholly free and how many were partly free.

(3) Column 7 should exhibit Muhammadan, Oriya or other pupils who are allowed to pay fees at favourable rates. The award of fee concessions under rule 92 of the Madras Educational Rules should be checked and a certificate recorded—vide Proceedings R.C. No. 368 D/38, dated 8th August 1938.

(4) The inspecting officer should certify that the Fee Regulations (Chapter VII, Madras Educational Rules) are complied with, or should record any deviation therefrom.

(5) If in institutions under public management fees are levied at rates other than the standard rates fixed in the Fee Regulations (Chapter VII, Madras Educational Rules), the number and the date of the Proceedings or other order according the general or special sanction should be entered in the column for remarks. It should be recorded whether fees are levied in full at the beginning of the term or by instalments.

8. *Table* (*h*).—This should be filled in by the headmaster. It should give the names of affiliated schools and a brief statement of all work undertaken by the headmaster and staff in connexion with them. It should also show the number of pupils admitted during the year preceding the inspection into the Central school from each of the affiliated schools. In the remarks column the inspecting officer should comment briefly on the quantity and quality of the supervision exercised by the staff and headmaster of the Central school and on the general standard of attainments of the pupils admitted from the affiliated school.

9. *Tables* (*i*), (*j*), (*k*), (*l*) *and* (*m*).—The inspecting officer alone will make entries in these tables. The main object of the remarks will be to guide the headmaster and staff and the criticism should be of a constructive character. The headmaster should have ready at the time of inspection a statement showing the portion of work prescribed in each subject for each form for both terms of the school-year and a list of the text-books used for each subject in each form. The inspecting officer should note carefully whether the portions accomplished by the time of his visit are reasonable with reference to the time of year and whether the text-books in use have been approved by Government. He should also note whether the general course of instruction is in accordance with the current requirements of the department.

Under (*i*) the extent of the playground space available should be furnished. The report of the Senior Physical Director in the case of boys' schools and the Woman Specialist in Physical Education in the case of girls' schools should be submitted along with the Tabulation, Inspection Report whenever they are available. Under (*k*) the inspecting officers should report on the extra-curricular activities of the school.

10. It is desirable that the scrutiny of registers should, as far as possible, be conducted within the school premises and that the registers should not be taken away from the school except in circumstances in which their submission in original to the controlling officers is deemed necessary, or when there are important omissions or irregularities requiring very careful scrutiny.

N.B.—(i) Remarks such as "same as last year" should be avoided.

(ii) Girls in boys' schools and boys in girls' schools should be shown in red ink under all columns.

1-A—Edl. B-63

Correspondent's remarks.	Inspecting officer's remarks on the *general financial position of the school and its policy as regards fees*, as well as on any details calling for remarks.
	The accounts were in good order. School fees show a slight increase in spite of concessions. Fees due at standard rates amounted to Rs.11,375-8-0. The expenditure on the teaching staff shows a slight decrease. But a bonus of Rs.360 was paid to the Headmaster who served the school for many years. Good use is made of games fees.

* Separate figures to be shown for each subject.

(*f*).—*Average marks for the school*—cont.

Inspecting officer's remarks on the working of the Secondary School-leaving Certificate scheme—

(1) Custody of the certificates; (2) the punctuality, accuracy and neatness with which entries in them are made; (3) the suitability of the choice of subjects under Group 'C' adequacy of the arrangements made for teaching them and of the number of 'C' subjects taken to afford scope for choice by pupils of varying aptitudes and expectations; (4) the system under which marks in schools are awarded; (5) a comparison of the marks awarded and of the notes in the certificates on handwriting, physical training, special aptitudes, etc., with the officer's own impression of the work and aptitudes of individual pupils; (6) whether due attention is given to 'B' subjects and any means taken by the school authorities to ensure it.

N.B.—Remarks should be made on all the above items.

(1) and (2) Satisfactory.

(3) The optional subjects offered and the number of girls learning each subject are given below:-

	Botany	Chemistry	Geography	Dom. Science	Physiology
Form VI.	2	13	3	1	2
" V.	14	17	-	9	7

The teaching of Geography is to be given up.

(4) and (5) Satisfactory.

(6) Needlework is taught up to Form V. Physical Training receives satisfactory attention.

(*g*).—*Madras Educational Rules.*

I

(1) Accommodation, (2) Sanitary condition, (3) Furniture, apparatus, appliances, and library, (4) Garden and museum, (5) Observance of rules regarding admissions and withdrawals, (6) Maintenance of registers, (7) Discipline, dress, etc.

(1) No change; sufficient and satisfactory.

(2) Good.

(3) The school is well equipped.

(4) There is a small garden.

(5) and (6) Satisfactory.

(7) Excellent. It may here be mentioned that this school was untouched by the political excitement of August and September, 1942.

II. Provident Fund including maintenance of registers.

Nil.

(*h*) *Remarks* in the case of an incomplete secondary school on the amount and quality of the supervision exercised over it by the headmaster of the school of which it is affiliated.

*(*i*) Physical Training. Boy Scouts. Medical Inspection.

(*j*) Moral and Religious Instruction.

(*k*) Manual Training for boys and Domestic Science for girls. (The nature of the Manual Training should be specifically mentioned.)

**N.B.*—The extent of playground available and fit for use should be noted as also information as to whether it is owned or rented.

(i) A separate report is attached.

(j) Receives satisfactory attention.

(k) Domestic Science is taught, and Needlework is taught by a technically qualified teacher.

(l) The organizing and supervising work of the headmaster including distribution of work among the staff, time-table, examinations, disciplinary rules for staff and pupils, admission, classification and promotion of pupils.

The direction and supervision of the instruction is efficient. The distribution of the work among the staff is satisfactory; so also is the provision made for internal examinations. Admissions and promotions are made with all care, and the classification of the pupils is satisfactory in consequence.

The better provision made for the teaching of Tamil is seen in the school's average marks (43) at the S.S.L.C. public examination - the highest in the station.

(m) The general impression of the inspecting officer with respect to the efficiency of the teaching and management of the institution. The medium of instruction used for non-language subjects should be indicated and in cases where instruction is not through the mother-tongue the reasons should be stated along with their own remarks. In cases where exemption has been granted the fact should be reported. Points specially discussed at the conference with the staff at the close of inspection should be mentioned.

An efficiently conducted and managed school. There has been satisfactory improvement in the teaching of Indian languages, Tamil in particular, throughout the school. In the lower school the girls are slow at figures. English was found weak in the lower forms B sections of Forms I and III. Science, History and Geography were good in the lower forms. History was also good in forms IV to VI. I was glad to find the class teaching of composition attempted in Form IV. There were some weak girls in Mathematics in Form V. Examination results were good last year in Form VI.

The school is the centre of good work in many directions, and a healthy and really excellent tone is maintained.

Satisfactory use is made of the war bulletins issued from this office.

Inspecting Officer.

Inspector of Schools,
Bangalore.

No. 238/10/42

INSPECTION REPORT.

302—8-8-38.

Name of school— Goodwill Girls' High School.

Date of Inspection— 13-11-1942 Time— 10 A.M. to 4-30 P.M.

Managing body (Government, Mission, or Non-Mission)— Mission.

A.—Syllabus Work.

1. Dress { Instructresses- Satisfactory. / Boys- Girls- Do.

2. Syllabus— The English Board of Education syllabus.

3. Exercises and games— From the above syllabus.

4. Other activities— Girls Guides and Blue Birds.

5. Physical condition of boys— girls- Good 6. Discipline— Good

7. Boys' response— Girls' response- Good.

8. Efficiency of the Instructor or Instructors—

B.—Sports and Games.

1. Size of ground for physical training work— Sufficient

2. State of physical training ground— Good

3. Playground—extent and condition— Same as the P.T. ground.

4. Playground activities— Teniquoit, handball, throwball, netball, rounders, etc.

5. Equipment for games of
   (*a*) The physical training period— Some more balls are needed-
   (*b*) The playground activities—

6. Equipment for Gymnastics—its condition— ----

7. How sports and games are organized— ----

8. Part taken by school in Athletic competitions and tournaments—
The school is an active member of the B.S.A.A. and sent in competitors for the Inter Girls' Schools' Sports.

C.—School Hygiene and Sanitation.

1. General school sanitation—	Good
2. Latrine and urinal accommodation—	----
3. Latrine and urinal sanitation—	----
4. Bathing facilities—	-----
5. Lighting of class rooms—	Satisfactory.
6. Ventilation of class rooms—	Do.
7. Class room furniture—	Do.
8. Sanitation of the school surroundings—	Do.

D.—General remarks and recommendations.

Staff. Miss D. Job and Miss J. Jesudasan have both left the school to join military service. They left in the beginning of the second term, and the P.T. work has suffered dislocation because of their departure. Miss Dorothy V. Johannes has been appointed in the place of Miss Job. Miss Johannes was in her University Trained Teachers' Certificate course in Rangoon, when she had to evacuate. She has been given instructions regarding her work. Though she does not possess a technical certificate, she is able to carry on her work. With some experience she is likely to prove of considerable use to the school. Some of the class teachers are helping with the P.T. work. They are doing good work.

Notes of Lessons, Record of Work, etc. Miss Johannes maintains daily notes of lessons. The other teachers should follow her example.

Entries in the S.S.L.C. Register have been made correctly.

Stockbook, games fund account, etc. The recent circular sent by the Inspector of schools on the subject has to be given effect to.

The Blue Birds of the school won the shield in the Annual Competitions held in October 1942.

The school has also won the cup for Group Competitive Games.

E.—General Impression.

Good.

Station, Bangalore,

* Details should be furnished. † For schools under public management subsidies should be entered under 5.

(4) The inspecting officer should certify that the Fee Regulations (Chapter VII, Madras Educational Rules) are complied with, or should record any deviation therefrom.

(5) If in institutions under public management fees are levied at rates other than the standard rates fixed in the Fee Regulations (Chapter VII, Madras Educational Rules), the number and the date of the Proceedings or other order according the general or special sanction should be entered in the column for remarks. It should be recorded whether fees are levied in full at the beginning of the term or by instalments.

8. *Table (h).*—This should be filled in by the headmaster. It should give the names of affiliated schools and a brief statement of all work undertaken by the headmaster and staff in connexion with them. It should also show the number of pupils admitted during the year preceding the inspection into the Central school from each of the affiliated schools. In the remarks column the inspecting officer should comment briefly on the quantity and quality of the supervision exercised by the staff and headmaster of the Central school and on the general standard of attainments of the pupils admitted from the affiliated school.

9. *Tables (i), (j), (k), (l) and (m).*—The inspecting officer alone will make entries in these tables. The main object of the remarks will be to guide the headmaster and staff and the criticism should be of a constructive character. The headmaster should have ready at the time of inspection a statement showing the portion of work prescribed in each subject for each form for both terms of the school-year and a list of the text-books used for each subject in each form. The inspecting officer should note carefully whether the portions accomplished by the time of his visit are reasonable with reference to the time of year and whether the text-books in use have been approved by Government. He should also note whether the general course of instruction is in accordance with the current requirements of the department.

Under (*i*) the extent of the playground space available should be furnished. The report of the Senior Physical Director in the case of boys' schools and the Woman Specialist in Physical Education in the case of girls' schools should be submitted along with the Tabulation Inspection Report whenever they are available. Under (*k*) the inspecting officers should report on the extra-curricular activities of the school.

10. It is desirable that the scrutiny of registers should, as far as possible, be conducted within the school premises and that the registers should not be taken away from the school except in circumstances in which their submission in original to the controlling officers is deemed necessary, or when there are important omissions or irregularities requiring very careful scrutiny.

N.B.—(i) Remarks such as "same as last year" should be avoided.

(ii) Girls in boys' schools and boys in girls' schools should be shown in red ink under all columns.

1-4—Edl. B-63

Instructions for the preparation of the report.

1. The name of the school, as recognized by the department, should be entered in full on the title-page.

2. Except in the case of schools directly managed by Government or by a local board, the names of responsible managers should be given in full on the title page.

3. (*a*) Any explanation which the manager or headmaster may desire to give regarding each table [Tables (*g*), (*i*), (*j*), (*k*), (*l*) and (*m*) excepted] should be given in the space allotted for the purpose.

(*b*) The remarks of the inspecting officers on each of the details mentioned below should be specific and if possible be brief, but with sufficient details as to the nature of the defects noticed.

(*c*) In the case of secondary schools with branches, the report should include relevant details and comments on the condition of the branch schools, particularly in the matter of staff, strength and accommodation.

4. *Table* (*a*).—Managers should afford the inspecting officer facilities for verifying the accounts. If any important change has taken place in the receipts or expenditure of the institution since the close of the year, so as to alter materially its financial position, the facts should be noted in the blank page. Care should be taken to see that the figures in Table (*a*) correspond with the figures entered against the same items in the financial statement for the same year.

5. *Table* (*b*).—(1) The names and other particulars of acting as well as of permanent incumbents should be shown in this table.

(2) *The professional certificates of all certificated teachers on the staff should be produced before the inspecting officer, who will thereafter verify the entries in this table.* Certificates which are not in the revised form should be submitted to the Director through the inspecting officer, for registration and renewal, and teachers who have lost their certificates should be instructed to apply forthwith for copies of such certificates.

(3) Physical training, and other special instructors should be included in this table, but teachers whose sole duty it is to teach religion, and clerks and menial servants should be excluded.

(4) The inspecting officers should review in the remarks column the qualifications of the staff with reference to rules 13 to 17 of the Madras Educational Rules, and prescribe the steps, if any, which are to be taken by the management to comply with the requirements of those rules.

6. *Table* (*c*).—(1) Explanation should be furnished in the appropriate column regarding fluctuations in attendance.

(2) Explanation should be furnished regarding pupils admitted without vaccination certificates.

7. *Table* (*d*).—(1) The fee registers should be produced for inspection. The inspecting officer should not only examine carefully the record of the terms concerned but also note any irregularity. It should also be stated whether the registers are kept in the forms prescribed in the Madras Educational Rules and whether the method of payment prescribed is followed.

(2) The totals of columns 2 and 3, and 4 and 5 should be the same, it being borne in mind that all admissions into the lowest class are to be entered in column 3 and all withdrawals from the highest class in column 4. In column 6 it should be stated how many pupils were wholly free and how many were partly free.

(3) Column 7 should exhibit Muhammadan, Oriya or other pupils who are allowed to pay fees at favourable rates. The award of fee concessions under rule 92 of the Madras Educational Rules should be checked and a certificate recorded—vide Proceedings R.C. No. 368 D/38, dated 8th August 1938.

Correspondent's remarks.	Inspecting officer's remarks on the *general financial position of the school and its policy as regards fees*, as well as on any details calling for remarks.
	The accounts were in good order. The institution is run economically, though not at the expense of the staff, who are paid a fair wage. Liberal fee concessions are granted. Fees due at standard rates amounted to Rs.10829-8-0 , of which only Rs.7422 was realized. Dearness allowance at Rs.2-8-0 a teacher has been given the staff. ~~(To cover the cost a ninth instalment of fees is being charged with the approval of the Inspector)~~ A ninth instalment of school fees continues to be levied to cover the increased cost of conducting the school.

qualification or from the age rule should be quoted in the remarks column.

(*b*).—*Teaching Staff*—cont.

Correspondent's remarks.	Inspecting officer's remarks on the suitability and adequacy of the staff as a whole, and on the agreements entered into between teachers and the management.
	Except for Nos.9, 19-21, and 23-24, the same staff as at last inspection. ~~(Miss Aaron has since left at very short notice, and has been succeeded by Mr. Govindaswamy, who has taught for many years at this school)~~ The school's recent experience has shown the wisdom of the insistence on the execution of an agreement in every case. Miss Gabriel has since left at very short notice to be married, but suitable arrangements have been made for carrying on her work, the part-time services of Mr. Govindaswamy, a former teacher, having been requisitioned for chemistry in Form VI.

(*f*).—*Average marks for the school*—cont.

Inspecting officer's remarks on the working of the Secondary School-leaving Certificate scheme—

(1) Custody of the certificates; (2) the punctuality, accuracy and neatness with which entries in them are made; (3) the suitability of the choice of subjects under Group 'C' adequacy of the arrangements made for teaching them and of the number of 'C' subjects taken to afford scope for choice by pupils of varying aptitudes and expectations; (4) the system under which marks in schools are awarded; (5) a comparison of the marks awarded and of the notes in the certificates on handwriting, physical training, special aptitudes, etc., with the officer's own impression of the work and aptitudes of individual pupils; (6) whether due attention is given to 'B' subjects and any means taken by the school authorities to ensure it.

N.B.—Remarks should be made on all the above items.

(1) and (2) Satisfactory.

(3) A suitable choice of optional subjects is offered, the subjects for the current year being as follows:-

	Botany	Chemistry	Domestic Science
Form VI	9	18	4
" V	16	17	-

(4) and (5) Satisfactory.

(6) Needlework is taught up to Form V, Drawing and Singing up to Form IV. Physical training receives particular attention.

(*g*).—*Madras Educational Rules.*

I

(1) Accommodation, (2) Sanitary condition, (3) Furniture, apparatus, appliances, and library, (4) Garden and museum, (5) Observance of rules regarding admissions and withdrawals, (6) Maintenance of registers, (7) Discipline, dress, etc.

(1) No change; sufficient and very satisfactory.

(2) Good, but additional latrine accommodation is needed.

(3) More desks are needed, and will be supplied. The school is well equipped in point of teaching appliances.

(4) An attempt had been made to start kitchen garden in spite of the acute shortage of water in the neighbourhood.

(5) and (6) Satisfactory.

(7) Excellent.

II. Provident Fund including maintenance of registers.

N i l .

(*h*) *Remarks* in the case of an incomplete secondary school on the amount and quality of the supervision exercised over it by the headmaster of the school of which it is affiliated.

*(*i*) Physical Training. Boy Scouts. Medical Inspection.

(*j*) Moral and Religious Instruction.

(*k*) Manual Training for boys and Domestic Science for girls. (The nature of the Manual Training should be specifically mentioned.)

**N.B.*—The extent of playground available and fit for use should be noted as also information as to whether it is owned or rented.

(i) Physical training receives adequate attention, though the teacher in charge lacks experience.

The school very kindly placed its premises at the disposal of the Lady who conducted the refresher course in physical training for women teachers.

There is no regular medical inspection of the girls.

(j) Receives satisfactory attention. All good causes receive ready support. Rs.100 was collected for the Red Cross. Frocks were made for poor girls.

(k) Needlework is taught by technically qualified teachers. Domestic Science is taught in Forms VI and III.

(*l*) *The organizing and supervising work of the headmaster including distribution of work among the staff, time-table, examinations, disciplinary rules for staff and pupils, admission, classification and promotion of pupils.*

The distribution of the work among the staff is satisfactory, and the direction and supervision of the instruction is effective.

Internal examinations are regularly conducted, and the results are recorded and made available for reference when determining promotions. The classification of pupils was generally satisfactory. In a few cases admissions had been made into the forms without a preliminary test, as advised in circulars from this office. Such tests will always be given in future. Promotions are made with care.

(*m*) *The general impression of the inspecting officer with respect to the efficiency of the teaching and management of the institution. The medium of instruction used for non-language subjects should be indicated and in cases where instruction is not through the mother-tongue the reasons should be stated along with their own remarks. In cases where exemption has been granted the fact should be reported. Points specially discussed at the conference with the staff at the close of inspection should be mentioned.*

There was general improvement in the quality of instruction, though this was not reflected in examination results, due to the presence of weak pupils. In the lower forms the pupils are grouped according to the medium of instruction - whether English or Tamil - and promotion from class to class is thus not made to depend entirely on progress in English. This is as it should be. Here it should be stated that the the standard of English in the high school forms is good. The report of the Deputy Inspector of Schools is attached.

As remarked in the last report, the school is the centre of good work in many directions, and it continues to maintain its excellent tone.

Inspecting Officer.

DEPUTY INSPECTOR'S REPORT

Primary Section. Tamil was satisfactory. The grammar and vocabulary exercises, however, seemed to have been neglected in Class III A. Much useful written work had been done in all classes, particularly the upper classes. Kannada and Telugu were also satisfactory. The results were good in arithmetic in all classes except II & IIIA. The general knowledge subjects were good throughout. Diagrams and maps were neatly drawn with due attention to detail. The work was specially good in Class VA. English was very fair. More attention to spelling in Classes III & IV and sentence construction in Class V was, however, needed.

Middle School Section. Good work was in evidence in English in the various types of written exercises set and the careful consideration paid to the correction work. The good results, however, were confirmed only to the A Sections in Forms I & II, while the other sections wre weak in spelling and sentence construction. The language errors committed by the girls were mostly of a few common types. A collection of such errors may be made and special drill provided in correcting them. The results were good in mathematics in all classes except the C sections of Forms I & II. History, Geography and Science were good throughout. Instruction was satisfactory in all the Indian languages both here and in the High School section.

High School Section. Good instruction was imparted in both history and geography. Useful maps, charts and geographical illustrations had been drawn in all classes.

Bangalore.

EDUCATIONAL DEPARTMENT

No. 446/P.37/44. Office of the Inspector of Schools,
C. & M. Station, Bangalore, d/- 15.2.1944.

From

M. S. H. Thompson, Esquire, B.A., F.C.P.,
Inspector of Schools,
Bangalore.

To

The Secretary
to the Hon'ble the Resident
in Mysore, Bangalore.

Sir,

I have the honour to request you to be so good as to substitute the following paragraphs for those occurring on pages 5 and 8 respectively of my Inspection Report for 1943-44 on the Goodwill Girls' High School :-

Second paragraph, page 5

"The institution is run economically, though not at the expense of the staff, who are paid a fair wage. Liberal fee concessions are granted. Fees due at standard rates amounted to Rs.10,829-8-0, of which only Rs.7,422 was realized. Dearness allowance at Rs.2-8-0 a teacher has been given the staff. A ninth instalment of school fees continues to be levied to cover the increased cost of conducting the school."

Second paragraph, page 8.

"Miss Gabriel has since left at very short notice to be married, but suitable arrangements have been made for carrying on her work, the part-time services of Mr. Govindaswamy, a former teacher, having been re-

P.T.O.

requisitioned for Chemistry in Form VI.

I have the honour to be,
Sir,
Your most obedient servant,

FOR Inspector of Schools,
Bangalore.

Copy to the Correspondent, Goodwill Girls' High School, Bangalore.
